See the benefits of a healthy workplace

As a locally owned small business, we know how important it is to have healthy employees. We also know how expensive providing insurance can be. The Sterling Vision Savings Plan will help you support your employees with discounted high-quality vision care at no cost to your business.

Does my business qualify?

The Small Business Vision Savings Plan is designed for local Oregon-based businesses with 1-75 employees. If you would still like to inquire, but your business exceeds 75 employees, please contact visionplan@sterlingvision.com for further details.

What is the Sterling Vision Savings Plan?

According to the Bureau of Labor Statistics, less than two-thirds of businesses nationwide offer vision insurance*. This plan is designed to provide savings on standard vision care products and services for uninsured employees of local Oregon-based small businesses and for you to offer it as a benefit to your employees.

When you enroll, all employees will receive detailed information from Sterling Vision about the plan and can enjoy benefits immediately. These benefits cannot be combined with vision insurance.
